

Aston le Walls Craft Club

Annual Report

The Craft Club was started in Autumn 2022 in response for requests from a number of villagers who wanted to share time with others who are also crafters. The club meets on the first Thursday of each month from 19:00 – 21:00. Teas and biscuits are provided.

The club was successful from the start attracting villagers who knit, crochet, make teddy bears, do macramé and make blinds along with a range of other crafts.

There is no set format to the sessions however groups are busy making poppies in all sizes and in different ways with plans to create a remembrance installation in the village come November.

The group is a lively, welcoming group and would be pleased to see new members from either the village or further afield.
